

# Anchor chains

## Stainless steel guarantees the premium quality of ROXMA anchor chains.

Röttgers Ketten has been manufacturing high quality chains for more than 100 years. ROXMA is the premium anchor chain for yachts completely made of European stainless steel. After accurate quality control, that includes the calibration of a tenth of a millimeter, salt spray tests in their own chambers and mechanical load tests, ROXMA chains are specially recommended for the use in warmer waters like the Mediterranean sea, guaranteeing outstanding durability and exceptional corrosion resistance.

ROXMA stainless steel anchor chains are cut, bent and welded on their state-of-the-art equipments ([watch video](https://youtu.be/-SvC-e4jqXo) [ <https://youtu.be/-SvC-e4jqXo> ]).
